Dear Friend:

I thought you did not need to send my vouchers to Seattle for payment for at your suggestion I reserved the May and June months for ourselves here, not having assigned them.

However my freight did not materialize on the first boat as ordered and I did not need the check. But wish to thank you kindly for your effort for me.

I hope you may be able to have a much needed visit to the States and the old home this summer, and be assured we fully appreciate the good it does one, to have a little rest.

Sincerely yours.
