DEPARTMENT OF THE INTERIOR
BUREAU OF EDUCATION
ALASKA SCHOOL SERVICE

Sept. 26, 1917.

SUBJECT, Glass.Walter H. Johnson, Dist. Supt.,
Nome, Alaska.

Dear Friend,

Our freight is all ashore except a bundle of notions, lost. But the 36 window lights from Seattle Paint Co. was entirely broken, not a whole glass left in the 2 crates.

The crates were strong iron bound, and were in good condition. But not marked "Glass" any where on them and one only had "This Side up" marked on the flat side. Winter is come and we have several broken lights; could you send us some from Nome soon? The Gasoline plant is in and at work.

Thanks to the goodness of Mr. Lopp.

Sincerely

Chas Replogle
