SUBJECT, Supplies & Reports.

Walter H. Johnson, Dist-Supt.

Nome, Alaska

Dear Friend:

We are sending our first months report and hardly know what to say. But really I found I could not handle this kind of a school alone. Mrs. Replogle has been with me every school day since we began and she has just received her appointment as assistant teacher, beginning the first of Oct. and ends March 31st '14, at \$60 per month.

I find the grades are far from standard and have had hard work to adjust myself to such conditions.

The supplies have come all right and the extra lightering is a grief to me. If the Seattle office would demand it I think the supplies could be landed in front of the school house

SUBJECT, \_\_\_\_\_

We can't do it here but there is no reason  
why we should pay two lightwage fees.  
I shall write to Mr. Sinclair about  
the matter if you think wise to do so.  
We are enjoying the beautiful gasoline  
lights and find the equipment for the  
school fair. Only we need lumber and  
as our bale of drygoods was lost we are  
short.

I have painted one room inside  
and built a step ladder in the industrial  
department - since reports have been made  
out.

We have much trouble about the  
Mission herd and (Stanley's) Lane River  
herd of reindeer getting mixed up, but  
think I will get that unraveled soon.

Sincerely

Chas Keflogle
