Mr. H. T. Nichols,
Dear Doctor:-

We have held a school election here, and elected a school board, of which I am secretary. The board is preparing to open school about the 15th of November, and we are informed that you can help us in the matter of school books until we get our supply in the regular course.

We are told that you have charge of the books that came in for ~~the~~ the school at Kotzebue, that those books are not in use this winter, and that you could let us have some of them for use here. Will you kindly let me know what you can do for us in this matter?

We shall have about twenty pupils here when we start.

Yours cordially
Wm. S. Levy.
