District-Supt. of Schools  
Nome, Alaska.

My dear Mr. Evans:-

Does the Bureau of Ed. grant the asking of material for making into clothing to be given to the school-children?

If so how much is admissable for each child? Are they supposed to have them as their own? or leave them at school for school-wear only? Last year also this I have furnished each girl with gingham for a dress,

This year the boys with goods for shirts and pants. This is my last year, and if the goods are furnished by the Bureau, I should like to ask for some things for the new teacher to have to work with.

Very respectfully

Mrs. Lucy W. Cox

Teacher
