Dear Sir:

Have decided to leave for Shungnak first of March with the mailman. He knows the trail, all the cabins etc. Mrs. Jones is very anxious I get there early as possible, so there will be no danger of delay, or in case they made a mistake figuring out date of expected arrival etc. If I were in their place I would want a physician on hand early, so thought it best to play safe as there is no sickness here. I left a letter here for Shields explaining it.

Very respectfully,

W. L. Barbour
