Nome, Alaska, March 4th, 1913.

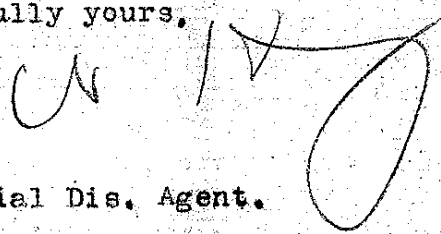

Dr. Walter L. Barbour,
Kotzebue, Alaska.

Dear Doctor;

I mailed the spark plugs, batteries and copper wires a few days ago and on this mail I am sending you the medical supplies films and two prints of each. Some of the films are not printable but Lomen Bros. are sending you two of each. The extra ones are for Mr. Shields. The printing paper is the best in the business and costs \$2.00 per box. The printing of films and developing are \$1.00. Postage will be about 25¢ so that will leave you a balance of \$6.75, as there is not a safety razor of the make you want I will keep the balance until I hear from you. All of the dealers have sold out their supply of Auto-Strop razors. I will not take a chance of sending you an inferior make.

I am mailing Shields tripod on this mail. Keep it for him. Hoping that all of the supplies reach you in good condition, I close with best wishes to you all.

Very respectfully yours,

Special Dis. Agent.
