Walter Johnson,  
Special Disbursing Agent,  
Nome, Alaska.

Dear Sir:

Have just returned from Noatak and Kivalina with shields we had a fine trip and the Deer went OK it was very cold at Noatak one morning it was 70 below. Mr. Shields left for Pt. Hope two days ago from Kivalina and had warm weather for a change.

I used Shields safty and it was such a dandy he said you would get me one there like it. am enclosing the money Auto-stop is the kind. am also sending under separte cover one roll of films I wish you would get developed and one of each printed and Shields wants you to get one of each printed for him.

Will you kindly get the following for me in Nome and advise what the cost is so I can deduct same from my authorization. I put some of my goods on the hummer following the Reindeer. One stethoscope one hypodermic syringe with needles etc. 6 rolls of Zinc Oxid Adhesive Plaster, 10 lbs absorbant cotton, cement dope like you sent me before for filling teeth, Filled two teeth for shields and saved his life so he told me to be sure and get more. I think Dr. Neuman has plenty adhesive plaster. Have had so much medical work, especially ulcers etc. it took more cotton etc than I ever dreamed of using.

I dont know how much the price will be for developing the roll of films etc but if there is not enough advise and if any over send me some stamps.

Thanking you in advance for your kindness, I remain  
Very truly,

W L Barbour

P.S. You might send me few packages of Iodoform gauze and also a little iodoform powder. Have had to send supplies to Selawik, Noatak and Kivalina.

P.S. Instead of sending stamps with the money left over please send me sensitized paper for printing pictures on.

W L B

(P.S. \$10. - enclosed)
