

there in the restaurant all night, drunk,
debauched by Jack Langmuir right there
under the direction of Elic Smith, the
proprietor. It is Jack's own testimony
that Elic told him to do it. Just outside
is a house of prostitution where two Eskimo
women are kept for the use of white
men. I feel that our Govt flag that floats
over this building is being besmirched.
In giving these Eskimo people no
protection, the Govt is practically
saying to them - you may have
the sand - the snow and the
black winds but we will have your
furs, your minerals and your daughter's
bone of your bone, blood of your
blood for men who go to search
for your minerals, whether they
be American citizens or
foreign born, they must have
your daughters to spend their
lust upon.

If there is no protection to be had
for these aborigines under our
beloved United States flag we had
better appeal to the Zar of Russia on
their behalf.

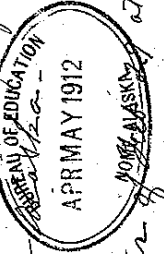

Not only the Christ spirit in my
heart weeps but the Republican
blood in my veins is made
to boil. These simple innocent people
who have been in darkness and
ignorance for ages now to have
civilization to come in upon them
with such black atrocities. As burning
shame! Men who have been put in
trust as officers, then fold their hands
& say they can't do anything.
