

I found the remainder about 20. in the 8th of June.

Females	12
Males fawns	5
Females fawns	3
<u> </u>	<u>20.</u>

Second time.

Morebook and I found again the remains about 15. in the 9th of June.

Females fawns	4
Females	4

Males 4. one of them killed it morebook than left about 3
 And Morebook found other about Males 2
 one Male fawn killed it because we had
 nothing to eat for three days.

All together

Females	18
Females fawn	7
Males fawns	5
Males	5

Total 35

Morebook - 9

COPY

Then I go to Ketchikan last summer
in the 21 of August. And so
I come back in the Oct 7th
