My dear Miss Hunnicutt:

I enclose a letter for Mrs. Faber. I do not know if she will have left by the time this letter reaches Deering so I am sending it in your care. Please read it. I have also sent a copy of it to Gandle.

I have been informed that Pommok is appointed your assistant from November first at forty a month. Therefore if she helps you before the first she will have to do it for practice and not for a salary!

Very truly yours,
