Dear Evans: I hardly expect you ~~in~~
so I will try to write you the numerous things
I had intended to talk with you about

I enclose you a copy of the
telegrams rec'd. I doubt if Luffman
comes at all - They could probably
do better. Might find a 2^d Mc Minville

Moses is at St. M. & will probably arrive
today on Corwin. Mc Munnus has fixed
up report send it

I phoned you from Council just after reading
it & answered you without much consideration. I may
have erred in favoring 4th yr instead of 3rd yr as
for Obliwlook & Moonaslook. If it isn't too late
might be best to change. My idea was to make
them graduates next June. Later it occurred to
me that male deer ^{extra} were allowed only 1st & 2 yrs.

As I see things now, if the Gov't takes
care of ~~the~~ herders who have been sub apprentices
the Mission should take care of herders who have
been Mission apprentices. Drevig should
loan lookbook 29 deer for 6 yrs as he promised

arrived with the deer at present we had me
in 1805 he had promised the loan ^{COPY} to them
but he thought the Govt was to furnish the deer
Boring has no right to give permission for an 8 yr old
deer - But if he's satisfied all right - but you

we can take Dutch boy off his hands - Will go
to Saylor as soon as teachers come on the "Vic." I suppose
no word with regard to sled deer for Santa Clara.

I found an Extra Rules & Regulations "at Kalovir
& gave to Miss Dumasway - I have only the proof
copy here - I think you will find several copies
at Wales. If not Cross & Lambell have some - I
loaned Seguyook \$10.00 He's to give it to you or
cross to send me next boat.

Please no mail for you
I think pink contracts have to be mailed
to Washington for Commissioner's signature.
You can charge trip to Dioneds & expense
account of Dioneds. Send voucher to me for
O.K. and number. What was the amt of the
voucher to Diamond L? I know what the number
was but ^{am} not ~~not~~ sure whether your passport
was on it or not

Send me, always a copy of your
reports, so I can keep posted. Am relieved
that you got the deer out of Mission herd and
across the Furber -

I note what you say about the
numbers ⁴⁰⁰⁰ in Wales & Kots. But if we can supply
Kobuk from Malabert, I think ~~to~~ ^{to} ~~be~~ ^{to}

your hands full north.
 Lampman evidently has wired out,
 What did you do about the instruction
 of the Asst at Home?

I have wired McBride the Resident
 Exhibit can go over till Feb or March.
 In the mean time let me know your
 views.

If this gale keeps up may not
 go to Unalakleet for 2 or 3 days.

With best wishes

I am
 Very truly yours

 to keep this one —

Bureau of Education,

ALASKA DIVISION,

Take the 697 north, so in making new benches
 of them, ^{in future} no more long drives will be necessary. They
 are woefully needed. Can probably put one east
 of Barron next year - am anxious to make
 hole in U. deer. But will discuss this later
 with you. I note you have 100 str down
 for Delawich. There are no provisions for such
 at present. - Robuck instead. If the way is open
 we might put one there by wiring for authorization.

If you are lucky enough to get away to
 St Lawrence try to get original or copies of all
 these papers (contracts) which Campbell's native has.
 I am afraid you will have to short a time to
 accomplish what you wish.

I want from Wales, those cheap harness
 are one set of the leather - 12 of the 15 cheap ones
 will belong to Gov't, so I suppose only three
 of the boys will have to pay for them. I also
 wish Aluminium ear mark & markers from
 Wales or Delle and also that Tattoo marker
 at Wales & tattoo oil. Used to be in Keok's house.
 Wish to experiment with it as an additional
 test mark for deer, so as to prevent sharp

practice feared by Cross if you can't
find the oil sand deposit. Leave word for
Thos. Mayoh to come to Igloo head before close
of navigation and any other instructions you
think he needs.

The Victoria is in sight. Will write you
more later.

Hamilton appointed Uvohke July at
\$60. Miss Duncaway gets \$90. She's
not satisfied with her salary, she's
~~surely~~ all right. I think will make
as good a supt as Geary or ~~Godwin~~

Anderson, Godwin is very unpopular
unwilling to be 1st to come under new
system of distribution. I was quite a
trial to him. If Cross is not satisfied
have him come down.

Just rec'd your telegram. No mail here.
Rean's cashier has talked over phone with Rean.
His plans are to come to Wales & then go to ~~Donnelly~~^{will be}
and St Lawrence. Better write him you
at Wales, waiting him or if south wind you
could board him north of Wales. Thinks he will
arrive at Wales in 4 or 5 days. - I will try to
get Campbell's mail and send ~~some~~
reports & long books.
