Mr. A.M. Evans

Dear Sir,

Am sorry to report to you that I cannot get a team to get wood for me. We had a stretch of bad weather & now everyone is busy getting ready to go on ice. Am down to five sacks of coal, and as there is no chance of getting wood now till June, I feel justified in keeping some for cooking so see no alternative but to close school till warm weather. It is unfortunate as nearly all of Kivalina is coming.

Thank you for the glasses. My eyes have ceased to bother me since wearing them. Will transfer the deer, as directed, to Niglik, also give the stuff to Elek to na from Kunder supplies.

Trusting I may yet make arrangements for home wood bark

Yours resp.
W. R. Richardson
