

No. 1115 post on the back.

Walter Chasick

Dept of Native Affairs
Nome, Alaska,

Henry
June 27

I write you to let you know that we arrived the "back" of Alaska. I have been very busy every day since the arrival in making garden. I have broken up as much new ground as there was old and I am glad that several native potatoes are as simple as the turnips, cabbages and many other such are up and growing.

I have obtained the Chaparral Cannon so that I can use it about your map and let you know. Will not write to you & send you my best regards.
