Dear Sir: -

I enclose herewith amendments to Mr. Seckler's medical requisitions as recommended by Dr. Nichols. These are items recommended by Dr. Nichols. These are items that Mr. Seckler visited but did not purchase as there was no chance of getting them as they were not listed. Each teacher has had experience with different medicines. When such extra medicines are approved by one of the physicians in the district I believe his recommendation and amendment should receive careful consideration. I therefore submit the attached list and would request that it be added to Mr. Seckler's requisition which he already has forwarded and the articles furnished if possible.

Very truly yours
