Nome, Alaska, Sept 20, 1910

Mr. M.F. Moran,  
Kotzebue,

Alaska

My dear Mr. Moran;-

A communication was received from Mr. Sickler, upon his arrival at Shungnak, stating that he examined the lumber, which is still below the Ambler River. I presume the natives are taking it up this fall in accordance with your plans stated here. I hope the materials will reach Shungnak this fall so that we can proceed with the building.

I presume you are more than busy with matters connected with the rush.

Very truly yours,
