

make requisition for them on your next list. I have read what you say regarding the purchase of the barter supplies and that you have not followed his instructions as contained in a certain letter. I do not have a copy of that letter so cannot take up this matter. However, so long as you do not exceed the limit of \$300.00 I believe we can adjust the matter without drawing on your salary. You understand that the bill for the goods must be presented on a voucher.

I hope to reach your place about January first, but of course cannot figure closely on the time. I will come over from Selawik. If possible I would like Jimmie to meet me at Selawik about the middle of December. I will try to get to Selawik about that time. If Jimmie needs anything to use in preparing for the long trip to Barrow please let him have anything you can spare from the supplies. He should have a good outfit. If you have a chance to send a letter to Selawik for me, and there is anything you wish me to do for you, write me there. I leave here as soon after the middle of November as I can.

Do not worry about any difficulties in connection with the new building. I believe we can straighten out everything. Very truly yours,

Superintendent, N.W. District.
