Kind Friend. How are you this morning
We are well. It is trying to snow a little
this morning. I have made arrangements
to have those supplies brought to the coal
mine and cashed all together. The boys
at the herd are busy making sleds and
harness are getting along nicely.

Could you send me some blank apprentice
contracts also the Reindeer deer Rules and
regulations the one you left here has been
lost I haven't found it since I came home
from the herd. I would like if you would
send me about 10 gallons of turpentine for
our painting as we haven't any here.
